## The Goldfields of Michigan

When mother earth her wealth unfolds,  
Her richest gifts are fields of gold.

Michigan wheat to feed the nation.

### TOO MODEST

Michigan people are apt to think that when a manufacturer says "My product is best," he means it, but may be his enthusiasm makes the statement a trifle exaggerated. Therefore, it is interesting to find that one manufacturer is accused of being too modest in regard to his 68 year-old liniment. Messrs. Nicholson & Stur of Cheyenne, Wyo., says they know from personal experience that Hanford's Balsam of Myrrh will do all and more than the Hanford Company claim for it.

To make a reputation, take a ton of gall, half a pound of brains, sixteen grains of truth, and fill up with additional lying. To make a friend take half a pound of sympathy, a pound of flattery, two pounds of beneficial service; mix well and serve hot. To make an enemy, take an ounce of truth, put it on ice for a minute and let them have it cold. To make love take one pound of flattery, a ton of sentiment and 200 lbs. of deception; apply it artfully.

Loan and Lend.  
Many errors are committed in the name of usage. That's why, today, the dictionaries permit one to use "loan" as a verb instead of "lend."  
The highest philological authorities, among whom is Richard Grant White, say that "loan" is absolutely the noun form of the word.  
"Lend me a dollar" is correct. Further, when the man has lent you the dollar you have obtained the loan and presumably will repay it. We negotiate for loans and obtain them if the person is willing to lend them to us. One cannot loan a loan any more than one can lend a lend. If we insist in using loan as a verb the word "lend" is so much excess matter in the lexicon.—St. Louis Post-Dispatch.

SAY! Dear reader, did you ever think that you might be carrying a dollar around in your pocket that belonged to the Expositor man? Before you lay this paper away take a look at the label and if you find you are in arrears visit the Expositor office.
